

WATCON
Engineering

WATCON Engineering draws its strength from being a dynamic young enterprise, which is fully geared to deal with complex engineering projects of today's world. We are excited to work on complex problems that challenge us to bring best out of the top engineering minds.

In today's global market place, we recognize every client has many choices to pick a service provider for a specific project. We ensure you if given an opportunity to serve your engineering needs, our organization will strive to create best possible experience for you without a doubt. **WATCON's** foundation is based on serving our client needs, keeping true to our commitments and delivering on promise.

We serve following sectors

- Power Sector; Thermal / WHR / Hydro.
- Oil & Gas
- Petro-chemical Industry
- Foods & Agro Based Industries
- Cement Industry
- Fertilizer Industry
- Civil /MEP and Infrastructure
- Telecommunications
- Mining and Mineral Departments

We believe in long term relationships forged with our clients, partners, vendors, sub-contractors and more important our own employees. **WATCON Engineering** has team of highly trained engineers and skilled craftsmen who are part of our growing enterprise and ready to be deployed to any challenging environment. Keeping such strengths in view we offer following services:

- Design & Engineering Services for Process Industry & Plant Construction
- Fabrication of Steel Structure, Tanks, Piping and Equipment; on site as well as at Works.
- Site installations; Stationary/ Rotary Equipment, Steel Structure, Tanks, Piping & Civil Construction
- Supply of Plants Materials for E&M and Civil Construction
- Supply & installation of PEB, HVAC & Fire Safety System/EPC
- Insulation, Refractory, Coating/ Wrapping & Industrial Painting
- Underground Piping for Process Plants & Infrastructure Network
- Procurement & Installation of Electrical Systems and Instrumentation & Controls
- Chemical Cleaning, Plant Testing & Commissioning Assistance
- Plant Maintenance /Turn Around Services
- Skilled Manpower Supply
- Supply Chain Services

Supply Chain Management

WATCON Engineering with its nationwide operations in Pakistan, is specialized in arranging complete local support for foreign companies interested to participate in various projects and procurement process of material or services. We offer our services to industrial sector, government and semi-government organizations, multinational companies and NGO's operating in Pakistan.

- Define / recommend the type of equipment required for large to small projects.
- Equipment and parts procurement while targeting cost effectiveness
- Coordinate all activities internationally and locally to compete and complete any project, supplying all types of equipment.
- Inspect machinery /equipment /accessories for clients, by providing sound technical expertise.
- Make necessary arrangements for quick transportation to ensure smooth transfer of goods from location to location.
- Logistically plan the effective completion of projects through familiarity of products and procedures.
- Negotiate better deals on behalf of the principals to sell most suitable machinery / equipment / services.
- Coordinate and arrange pre-project information
- Day to day follow-up with the clients

Products

Oil & Gas

- Oil well drilling equipment, Machines.
- Engine Driven Centrifugal Pumps
- Steam Turbines
- Seismic Rigs, Seismic Data Processing System
- HP Boilers (Complete) With Super Heaters.
- Industrial Furnaces
- Piping

Industrial Machines, Equipment's & Complete Systems.

- Foundry Machines, Moulding Machines, Casting Machines & Equipment, Woodwork Machines.
- Testing machinery & equipment.
- Air engineering equipment
- Heat Processing, lifting, & Welding equipment.
- Mining & Earth Moving Machines.
- Food Processing and Beverage equipment
- Packing machines
- Helium Leak Detector
- Fire Fighting System Complete (EPC)
- Security & Safety Equipment.
- Geo-Phones & Telecommunication Systems
- Chemical processing equipment.
- Medical equipment.

Valves

- Pressure Relief valves
- Control valves

- Shutdown/blow valve
- Industrial Pneumatic valve
- Butterfly valves
- Ball, Gate, Check & Choke valves
- Forged or Cast valves.

Gauges

- Pressure & Temperature gauges
- Differential Pressure gauges.
- Level gauges
- Auto Tank gauging system

Electrical & Instrumentation

- H2S Scavenger
- Power Transformers
- Switchgears
- SCADA System
- Weather Proof Fluorescent / Flood / Surface Lights
- Explosion Proof Lights, Junction Boxes, Distribution Boards, Cable Glands, Motor Control Stations, Power Plugs & Sockets, Limit Switches & Emergency Switches
- Industrial & Hazardous Area Power Socket & Plugs
- Motor Drives, Explosionproof motors & Motor Soft Starters
- Instrument Cables
- Explosion Proof / Weather Proof Cable Glands
- Thermowells, Manifolds, Pressure Switches, RTD
- Cable Trays, Grating
